Re: Grant No. 1036AR2

James A. Will, D.V.M., Ph.D.
Professor and Chairman
Department of Veterinary Science
University of Wisconsin
1655 Linden Drive
Madison, Wisconsin 53706

Dear Dr. Will:

Your letter of October 1 outlining the program for the FASEB symposium on Lung Neuroendocrine Cells and Regulatory Peptides and requesting financial assistance from The Council for its support was discussed at a recent meeting of our Scientific Advisory Board and subsequently by the administrative and scientific staffs.

The Council's primary mission is the support of laboratory and clinical research along certain specific lines. Contributions for meetings and conferences are restricted to a relatively few special cases.

We feel that your conference falls in this category and are pleased to award you a contribution of $2,000.00 toward support of your symposium.

Please let us know to whom our check should be made payable. We hope that you will be successful in finding additional sources so that your goals for making this a highly significant event can be fully attained.

Sincerely,

W. T. Hoyt
Executive Vice President

WTH/lp

bcc: EK, ROK (Note -- this action was taken at the October Executive Committee Meeting)
